***ABSTRACT***

*MTs Negeri 5 Klaten is one of the Tsanawiyah Madrasahs in Klaten Regency. At MTs Negeri 5 Klaten, violations committed by students are still recorded manually in a book which is likely to be lost. For this reason, we need a system that can help and make it easier to record violations, namely by building the system into a website. With a well-computerized system, it is hoped that this system can provide convenience in the process of inputting data, searching for data and creating reports so that the data processing process becomes faster and more accurate.*
