ABSTRACT

PT Kharisma Kimia Indonesia is a company in the field of manufacturing all kinds of soap. PT Kharisma Kimia Indonesia is located on Jl. Karadenan No. 2B, Cibinong, Bogor, West Java. PT Kharisma Kimia Indonesia still uses manual sales, which means buyers have to call before buying. Due to the large number of buyers, the company owner wants to create an online purchasing system using a payment gateway. So here the author creates an online purchasing system using a web and mobile based payment gateway. This system can help owners in distributing Primaklin soap products. This system uses the Node.js programming language and MySQL as the database. By creating this system, it can help sell products more efficiently and quickly.

Keywords: Sales system, Node.js, MySql, Payment Gateway, Mobile, Website.
