This study aims to determine the meaning of denotation, connotation, myth, and the meaning of the message contained in the Grab advertisement version "Watch to Believe Grab is as Economical as That". This study is a type of qualitative research using a descriptive case study method and Roland Barthes' semiotic model. The results of this study indicate that the Grab advertisement version "Watch to Believe Grab is as Economical as That" contains the meaning of a message of economy. In addition, the denotative meaning is shown by a man's journey from college to work. The connotative meaning in this advertisement is that Grab is a loyal friend on every journey. While the myth in this advertisement is about economy and the ease of Grab services. The words economy and ease will have different meanings based on each individual's preferences.
