Abstract

This study is aimed to analyze the influence of Erigo's brand omni-channel on customer loyalty with customer satisfaction as mediating variable among fashion users in the Special Region of Yogyakarta. The research employed quantitative approach. The sampling technique used was purposive sampling, with total of 127 respondents who were users of Erigo fashion products. Primary data was collected using questionnaire distributed via Google Forms, which has been tested for validity and reliability. Data analysis involved descriptive analysis, instrument testing including validity and reliability tests, classical assumption tests such as normality, linearity, and heteroscedasticity tests, and hypothesis testing including t-tests, Sobel tests, and coefficient of determination, with the assistance of IBM SPSS Statistics version 26. The results indicates that omni-channel has positive and significant effect on customer loyalty, omni-channel has positive and significant effect on customer satisfaction, customer satisfaction has positive and significant effect on customer loyalty, and customer satisfaction mediates the relationship between omni-channel and customer loyalty.
