Abstract

This study aims to analyze the influence of content marketing, viral marketing and influencer marketing on purchase decisions of social commerce among TikTok Shop users in Yogyakarta. This study used primary data with data collection methods through the distribution of questionnaires that have been tested for validity and reliability. This study used purposive sampling method and the samples used were 108 samples. The data analysis conducted in this study were classic assumption test, multiple linear regression analysis and hypothesis testing using t test, F test and coefficient of determination. The results of data analysis show that content marketing, viral marketing and influencer marketing have positive and significant effects on purchase decisions of social commerce among TikTok Shop users. The results of this study prove that digital marketing is a good strategy in influencing consumer product purchasing decisions.

Keywords: Content Marketing, Viral Marketing, Influencer Marketing, Purchase Decision.
