ABSTRACT

CV Mulya Gemilang is a company that operates in the distribution sector such as: soap, sandals, perfume, diapers, oil, and many others. CV Mulya Gemilang has several branches, the center is located in Purwokerto, Central Java. This company has admin, sales, supervisors, warehouse heads and drivers. In companies, problems are often encountered, namely employees working beyond normal working hours or working overtime, where these problems disrupt the balance between work and life outside of work. These problems can affect the job satisfaction of CV Mulya Gemilang employees. Based on these problems, this research aims to determine the effect of work life balance on the job satisfaction of CV Mulya Gemilang employees. In this study, the researchers took 75 CV Mulya Gemilang employees as research subjects. This research uses quantitative methods, and uses two measuring tools, namely the job satisfaction scale and the work life balance scale. This research uses a non-linear regression test. The results of the research show a significance value of 0.000 ($p<0.05$), meaning that work life balance has an effect on job satisfaction. Based on effective contribution (SE), each aspect of work life balance according to Fisher et al (2019) which contributes highly to job satisfaction starting from the Work Interference with Personal Life aspect 13.5%, the Work Enhancement of Personal aspect 9%, the Personal Life Interference with Work aspect 6.2% and Personal Life Enhancement of Work 1.1%. The Work Interference with Personal Life aspect is the aspect that has the most influence on employee job satisfaction in this research.
