THE EFFECT OF FINANCIAL INCLUSION AND FINANCIAL TECHNOLOGY ON FINANCIAL PERFORMANCE OF FOOD AND BEVERAGE UMKM IN SLEMAN YOGYAKARTA WITH FINANCIAL LITERACY AS A MEDIATION VARIABLE

Elysa Restu Setia Pratiwi

Abstract

This study aims to determine the effect of financial inclusion and financial technology on the financial performance of food & beverage MSMEs in Sleman Yogyakarta, with literacy as a mediating variable. The population of this study consisted of 25,307 MSME business actors in Sleman, with a sample of 400 respondents selected using the purposive sampling method. This study utilized quantitative data, with primary data collected through online questionnaires that were tested for validity and reliability. The data analysis method employed in this study was Partial Least Squares Structural Equation Modeling (PLS-SEM). The analysis results indicate that financial inclusion and financial technology positively and significantly affect the financial literacy and financial performance of MSMEs in Sleman, Yogyakarta. Additionally, financial literacy positively and substantially influences the financial performance of food and beverage MSMEs in Sleman, Yogyakarta. Furthermore, financial inclusion and financial technology positively and significantly affect financial performance through financial literacy among food and beverage MSMEs in Sleman, Yogyakarta. This study offers practical implications for MSME actors to enhance their financial literacy to utilize financial services optimally and encourages government policies to expand financial inclusion in the Sleman, Yogyakarta area.
