This Final Project Report discusses the process of auditing the revenue cycle and revenue in advance at PT. CAL which is a company engaged in professional personnel certification services. The auditor conducts various audit procedures to gain confidence that the cycle has been presented fairly. The stages carried out in this cycle audit program are testing controls and substantive testing of transaction groups, detailed testing of balances, analytical procedures, and presentation and disclosures. The test consists of audit procedures in an audit program that the auditor must carry out to audit the revenue cycle and revenue in advance at PT. CAL. The audit results conclude that the auditor has carried out the auditing process in accordance with audit procedures and the cycle of revenue and revenue in advance of PT. CAL has been fairly presented.

Keywords: audit cycle of revenue and revenue in advance, audit procedures, audit programs, professional personnel certification services.
