

## **ABSTRACT**

*Moonly Café is a culinary business. It was founded in January 1<sup>st</sup>, 2016, which is located at Jl. Minister Supeno no.101 Umbulharjo, Yogyakarta. The initial concept of Moonly Café's business is a culinary business that has students as a target market because the location is near campus area and student boarding houses. Currently, the process of recording customer orders by the cashier uses computerized recording. However, the delivery of customer orders from the cashier to the kitchen still use handwritten on paper. It is problematic if the sales are in high traffic, the kitchen is overwhelmed. The purpose of this research is to produce a Web-based Integrated Point of Sales Information System design for solving those problems properly, quickly, and accurately.*
