

ABSTRACT

PT. Andi Dwi Haryanto Tunas Merapi Pracimantoro is a company engaged in bodybuilding or truck body sales located in Pracimantoro. Everyday PT. Andi Dwi Haryanto Tunas Merapi Pariwisata serving truck tailgate orders. This company still uses paper recording in several process activities, in terms of sales and in managing the required raw material data. This causes several problems that arise, such as the customer having to come directly to order the truck body while the distance between the customer and the company is quite far, losing order data and goods data, forgetting to record in the ledger, lack of accuracy in recording incoming and outgoing materials as well as problems in the production of existing reports. To get accurate information, the authors create an information system for car body inventory and sales of PT. Andi Dwi Haryanto Tunas Merapi Wonogiri.

Keywords: Information Systems, Inventory, Sales.
