ABSTRAK

Pondok pesantren merupakan suatu lembaga pendidikan non formal yang terdapat di Indonesia. Pondok pesantren memiliki peserta didik yang di sebut sebagai santri, sebagian besar santri dituntut untuk menjadi individu yang mandiri, seperti mengatur keuangan sendiri, mencuci baju sendiri, padatnya kegiatan yang terdapat dalam pondok pesantren, santri juga diperlukan memiliki sikap disiplin untuk menjalani segala aktivitas yang ada di pondok pesantren. Fenomena tersebut membuat santri putri mulai bersikap disiplin seperti menjalankan solat berjamaah, mengikuti kegiatan belajar mengajar, pulang ke pondok sesuai waktu yang telah ditentukan. Penelitian ini dilakukan bertujuan untuk menguji adanya pengaruh antara kemandirian terhadap sikap disiplin santri putri inayatullah. Metode penelitian yang digunakan yaitu kuantitatif, subjek yang digunakan dalam penelitian ini adalah sebanyak 88 santri putri, dan menggunakan teknik sampling nonprobability berupa purposive sampling. Untuk menguji hipotesis dalam penelitian ini, digunakan teknik analisis data regresi linear sederhana dengan bantuan IBM SPSS Statistic 22 for Windows. Berdasarkan hasil penelitian menunjukkan bahwa terdapat pengaruh kemandirian terhadap sikap disiplin santri putri inayatullah, dengan koefisien regresi sebesar 1,077 dan nilai signifikansi sebesar 0,000 ($P < 0,5$).

ABSTRAK

Islamic boarding school is a non-formal educational institution in Indonesia. Islamic boarding schools have students who are referred to as santri, most of them are required to be independent individuals, such as managing their own finances, washing their own clothes, the density of activities contained in the boarding school. Students also need a disciplined attitude to carry out all the existing rules of Islamic boarding school. This phenomenon makes female students begin to be disciplined, such as carrying out congregational prayers, participating in teaching and learning activities, returning to the cottage according to the specified time. This research was conducted to examine the influence of independence on the disciplinary attitudes of inayatullah female students. The research method used is quantitative, the subjects used in this study were as many as 88 female students, and used a non-probability sampling technique in the form of purposive sampling. To test the hypothesis in this study, a simple linear regression data analysis technique was used with the help of IBM SPSS Statistic 22 for Windows. Based on the results of the study showed that there was an effect of independence on the disciplinary attitudes of inayatullah female students, with a regression coefficient of 1.077 and a significance value of 0.000 ($P < 0.5$).
