

ABSTRACT

KUD Subur is a village unit cooperative located in Semin District, Gunungkidul Regency, Yogyakarta Special Region. KUD Subur was established on January 19, 1976. Due to the increasing public demand for the use of subsidized fertilizers for agriculture, KUD Subur as a fertilizer distributor of UREA tries to meet these demands by bringing in fertilizer from fertilizer producers and sending it to kiosks / retailers to sell to groups. - farmer groups in the community. Therefore, a system that is capable of carrying out fast and efficient procurement and distribution as well as Website-based fertilizer supervision with Payment Gateway payments is needed. The system design uses the HTML, CSS, PHP and MySQL programming languages as the database server. The development of this application aims to facilitate the sales process of subsidized fertilizers, shorten the time and better control fertilizer.
