**THE COMPETENCE ASSESSMENT PROCESS IN IMPROVING THE
PERFORMANCE OF EMPLOYEES AT THE COMPANY'S EDUCATION
AND TRAINING AGENCY IN THE CITY OF YOGYAKARTA**

Astri Juariesna

Abstract

This study aims to find out how the process of implementing competency assessments in improving employee performance at the Yogyakarta City Education and Training Personnel Agency in 2020 has been running in accordance with the guidelines for implementing competency assessments based on the Yogyakarta Mayor's regulations. This study uses a qualitative descriptive data analysis method with the method of obtaining observational data and structured direct interviews in the field of competency assessment of the Yogyakarta City Education and Training Personnel Agency. The sampling technique used is purosite sampling. The respondents used in this study were 30 employees of the Yogyakarta City Education and Training Personnel Agency. The research data was processed using the Interactive Data Analysis Model method from Miles and Huberman. The results of this study indicate that in the implementation of competency assessment using the Assessment Center measuring instrument, the simple method has been carried out optimally and has been running in accordance with the SOP for the implementation of competency assessment which refers to competency assessment guidelines based on the Mayor of Yogyakarta regulation number 32 of 2015 so that the results of the competency assessment can be used as a foundation in determining work performance in the future period.
