

**PENGARUH SOCIALLY RESPONSIBLE INVESTMENT TERHADAP
KINERJA KEUANGAN PADA PERUSAHAAN SEKTOR
PERTAMBANGAN YANG TERDAFTAR DI BEI PERIODE 2017-2019**

Diana Monica Sari

Abstrak

Penelitian ini bertujuan untuk menguji pengaruh *Socially Responsible Investment* terhadap kinerja keuangan. Populasi dalam penelitian ini adalah perusahaan sektor pertambangan yang terdaftar di Bursa Efek Indonesia (BEI) selama periode 2017-2019. Pemilihan sampel menggunakan *purposive sampling*, dari metode tersebut diperoleh 34 sampel dengan 3 tahun pengamatan sehingga diperoleh 102 sampel penelitian. *Socially Responsible Investment* (SRI) diukur menggunakan SRI index oleh JSE Limited tahun 2019. Metode penelitian yang digunakan dalam penelitian ini adalah metode eksplanatori yang bertujuan menguji pengaruh antar variabel melalui pengujian hipotesis dengan menggunakan data kuantitatif. Penelitian ini menggunakan *Structural Equation Modeling-Partial Least Square* (SEM-PLS) dalam menganalisis data. Penelitian ini menggunakan dua model regresi, variabel independen SRI dan variabel independen empat indikator SRI untuk melihat indikator SRI yang paling mempengaruhi variabel SRI. Hasil penelitian model regresi yang pertama yaitu variabel independen SRI menunjukkan bahwa *Socially Responsible Investment* (SRI) memiliki pengaruh positif dan signifikan terhadap kinerja keuangan dan hasil penelitian model regresi yang kedua yaitu variabel independen empat indikator SRI menunjukkan bahwa indikator yang paling mempengaruhi variabel SRI adalah indikator *Corporate Governance* dan *Economic* yang memiliki pengaruh positif signifikan terhadap kinerja keuangan.

Kata Kunci: *Socially Responsible Investment*, Kinerja Keuangan, *Firm Size*.

**THE EFFECT OF SOCIALLY RESPONSIBLE INVESTMENT ON
FINANCIAL PERFORMANCE ON MINING SECTOR COMPANY
LISTED ON IDX FOR THE 2017-2019 PERIOD**

Diana Monica Sari

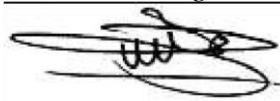

Abstract

This study aims to examine the effect of Socially Responsible Investment on financial performance. The population in this study are mining sector companies listed on the Indonesia Stock Exchange (IDX) during the 2017-2019 period. Sample selection was done by purposive sampling. From this method, 34 samples were obtained with 3 years of observation so that 102 research samples were obtained. Socially Responsible Investment (SRI) is measured using the SRI index by JSE Limited in 2019. The research method used in this study is the explanatory method which aims to test the effect between variables through hypothesis testing using quantitative data. This study uses Structural Equation Modeling-Partial Least Square (SEM-PLS) in analyzing the data. This study uses two regression models, the independent variable SRI and the independent variable four SRI indicators to see which SRI indicators affect the SRI variable the most. The results of the first regression model research, namely the independent variable SRI, show that Socially Responsible Investment (SRI) has a positive and significant influence on financial performance and the results of the second regression model research, namely the independent variable, the four SRI indicators indicate that the indicator that most influences the SRI variable is the Corporate indicator. Governance and Economics which have a significant positive effect on financial performance.

Keywords: Socially Responsible Investment, Firm Size, Financial Performance.
