*This final paper entitled *The Use of Dusun Language in the Transmigration Area in Jambi* is intended to find out the transmigrant's reasons for using Dusun language. Besides, this study also reveals the change of Javanese words into Dusun language and kinds of loanwords in some of Dusun language words.*

This study belongs to a qualitative research because the data were in the form of the text and the data were not analyzed by using any calculation and statistical procedure. The object of this study is Dusun language. This study applied observation technique, interview technique, noting technique and documentation technique. In collecting the data, the writer was interviewing some transmigrants in Jambi by giving some questionnaires to them, then recording it, listening to people talking, reading texts in Dusun language and writing also recording some vocabularies in Dusun language.

In analyzing the data, she was listening to the recorded interview, reading the notes, identifying the transmigrant's reason for using Dusun language, and classifying the change of Javanese words into Dusun language.

The result of the study shows that the general reasons of using Dusun language by transmigrants are solidarity, location, and interlocutor. The change of Javanese words in Dusun language can be classified into a change in the form and change in the meaning. There are two kinds of borrowing word in Dusun language; direct borrowing and indirect borrowing.

Key words: dusun, language, reason, change, borrowing, word.
