

## **ABSTRACT**

*The YPE Sawunggalih Kutoarjo Vocational Bursa Kerja Khusus (BKK) has many collaborations with other companies to distribute students and alumni who are ready to work. The Bursa Kerja Khusus (BKK) of SMK YPE Sawunggalih Kutoarjo was formed in 2006 under the name BKK Karya Sawunggalih. Registration at the Bursa Kerja Khusus (BKK) SMK YPE Sawunggalih Kutoarjo via a link which will then create a whatsapp group and announcements about the selection stages are explained directly before the exit selection schedule is very ineffective in providing existing registration information so that registrant data can be lost. The ineffective system causes the loss of records of students who register, pass the selection stage 1 and are accepted by the company. The SMK YPE Sawunggalih Kutoarjo Bursa Kerja Khusus (BKK) requires a system that can record registrants (outside alumni and alumni of the YPE Sawunggalih Kutoarjo Vocational School) who use BKK services to register work at certain companies that open job vacancies and are available at BKK SMK YPE Sawunggalih Kutoarjo. Management of registration data is carried out by creating a Design and Construction of a Bursa Kerja Khusus (BKK) Registration Information System.*
