ABSTRACT

Bener Sport shop is a place of business located in Yogyakarta which is engaged in the sale of sports equipment, including basketball shoes, soccer shoes, futsal shoes, soccer shirts, soccer jackets, deckers, socks, volleyball, takraw balls, basketballs, air rifles, musical instruments, fishing rods, and much more. The Bener Sport shop also provides guitar and racket string repair services. This study aims to create an information system that makes it easier for the Bener Sport Shop to manage transactions for the sale of goods and services. Making this information system using the programming language Hypertext Preprocessor Programming (PHP), Cascading Style Sheets (CSS), JavaScript and Hyper Text Markup Language (HTML) and using a MySQL database.

Keywords : *Bener Sport, Information System, MySQL*
